

QUALITY POLICY

Ro-Bal Steel Fabrications manufacture, fabricate and erect structural steel products for use in both Private and Public sector construction.

Our products are produced to meet the exacting demands of increasingly specialised and competitive market. Considered a leader in the Steel Fabrication sector Ro-Bal Steel Fabrication is committed to the following policy requirements:-

- Compliance to the requirements of the ISO 9001:2015 standard and to the continual improvement of our quality management system.
- Compliance with the requirements of applicable regulations
- Establish and review quality objective/s aimed at adding genuine value to the business.
- Communicating the requirements of our quality management system to the team at Ro-Bal and involving them in improvements to our key processes, associated controls and procedures.
- Reviewing this policy via the management review process ensuring that it remains fit for purpose.

This policy has been communicated to all employees and is available on our website and to relevant interested parties upon request.
